## COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

The selectmen met Wednesday night to review the warrant for town meeting which will be held on March 1.

There will be an article to see if the town will enact a dog control ordinance, also there will be articles to clarify existing ordinances pertaining to who has the authority to issue permits for parades, excavations in streets, etc. There will be articles modeled after those used by the Fire Department to assist us in the administration of the Police Department. These basically will make the manager responsible for the operation of the Police Department with the selectmen setting the policies to be followed. On occasion there have been problems, as the situation now exists for the officer to get instructions when he needed them immediately.

An article to see if the town will grant a discount on taxes paid prior to Sept. 1 will be inserted in the warrant.

## STATUTE FORBIDS OPERATION OF SNOWMOBILES ALONG RAILROAD RIGHT-OF-WAY

The Maine statutes specifically prohibit the operation of snowmobiles along or adjacent and parallel to the tracks of any railroad within the limits of the railroad right-of-way. There are stiff penalties provided for those apprehended for any such action.

Through this notice it is hoped that snowmobile operators would observe the law, both for their own safety and for the safety of railroad operations.

In past years, for the most part, trespass was by single or by a few snowmobiles together on railroad rights-of-way, according to Canadian National Railways. But this year in a Southern Maine area alone three ski-mobile club groups, each from 33 members to over 100 have been riding over and along the rails. The problem has now become of immense proportion in the potential dangers to life and limb at the approach of a train. Also repeated discovery of cattle fences about the railroad which have been found cut to allow ski-mobile passage, results in cost to the railroad for repairs to fences and could result as well in payments to farmers for loss of wandering cattle on the tracks in the summer months.

## S. A. D. 44 DIRECTORS APPROVE \$1.63 MILLION BUDGET FOR 1971

Annual District Meeting to be Held Tuesday, Feb. 16

Meeting at Telstar Regional High School on Monday evening of this week, the board of directors of S. A. D. 44 approved a \$1,693,938 gross operating budget for the 1971 calendar year. With estimated receipts of \$731,385, there is \$962,553 remaining to be assessed to the member towns of the District.

A request for two additional elementary instructors was eliminated from the budget. This was made possible when the directors voted to close the R. C. Foster School, Newry, for the 1971-72 school year, releasing two teachers for utilization elsewhere in the district's elementary program. Students normally assigned to the Newry facility will be assimilated into the Bethel school without any overcrowding resulting. It is said that this action will result in a saving of some \$20,000 during the next school year.

The directors eliminated the position of assistant superintendent, effective July 1 of this year. Funds are included in the budget for a teacher's aide at Telstar to assist in the Art Department and an additional instructor to work in the math and science departments.

Funds are included in the budget approved by the directors to purchase two 60-passenger buses and a three-quarter ton conventional pickup. One of the buses currently in use will be replaced and another of the older units relegated to spare duty. Since last fall the district has had only one spare bus suitable for student transportation.

The approved gross budget reflects an approximately 7.6% increase over the \$1,572,990 operating budget of last year. The 1971 approved net budget is about 13.7% over last year's \$846,581 figure. Estimated receipts (including about a \$16,000 drop in state aid) shows a net of only about \$5,000 more than in 1970.

Voters of the district will take action on the budget approved by the

## UPTON

— Mrs. Arline Bernier, Corres. —

The cold weather continues and if the groundhog works his way up through the deep snow he is apt to freeze his nose. While reading a history of the Androscoggin River Valley, I read a bit about about a winter in the 30's when woodsmen would take a plate of piping hot beans from the campfire for their noon meal and the beans would freeze before they finished. I was skeptical, knowing these men would not be talking but would be concentrating on finishing the meal in the shortest time possible, but Roland said it was true—He was working up on the Diamond and the men heated their plates and took smaller helpings to avoid eating cold or frozen beans!

The school committee and selectmen held a joint meeting at the request of Virginia Williamson to discuss the question of whether the town is liable for tuition for the Lavalley children who are being cared for by their aunt, Lucille Lagesse.

The Ladies' Aid have a box of handmade articles which will be distributed among the homes. Folks are invited to purchase from the box and (or) donate an article (s).

We are informed that new seat covers and a carpet will be given to the church and think it would be nice to paint the inside of the building. As a start toward this project I have offered a painting of a panther done on blue velvet. Elsie Fuller will be in charge of selling this item.

Bea Judkins opened her primary school in her home Monday morning with four pupils. Tuesday she had an attendance of five, and there are three others who are planning to attend but are ill at this time.

Colon Fuller is a little better, but suffers swelling and discomfort in his feet.

The Bucks visited relatives in Buckfield Saturday.

Alden Nelson spent several days at his home here.

Horace Goodrum was ill Sunday. The family left Sunday night, presumably for this reason and at this writing I have no report of development.

Fred and Bea Judkins went to Rangeley Sunday to visit the Baileys. They attended church services at St. Mark's where Father Bailey is pastor, then went on to visit relatives in Phillips.

Several snowmobiles were active in the area Saturday and our fields are criss-crossed with their tracks.

They also discussed having active and inactive rosters whereby a member who was unable to attend meetings or older folks wanting to belong but not being able to actively fight fires could still be called on to help out in smaller capacities. Refreshments were served following the meeting.

## TAX TABLES INCLUDE

## LOW INCOME ALLOWANCES

The Federal income tax tables for 1970 take into account the low income allowance added to the law by the Tax Reform Act of 1969. As a result, said Whitney L. Wheeler, IRS District Director for Maine, taxpayers do not have to figure the low-income allowance.

For 1970, the maximum low income allowance is \$1100. The effect of the \$1100 allowance and the \$625 personal exemption on a single person with no dependents is to eliminate liability for tax until income reaches \$1725, (\$2350 for a single person, G or over).

Mr. Wheeler said the tables reflect whichever is the larger for each income bracket—the low income allowance or the percentage standard deduction. The tax tables cover income up to \$10,000. Until this year, tax tables covered income under \$5000.

Taxpayers with incomes of \$10,000 or more who expect to itemize deductions will continue to compute their own tax instead of using tables.

## SKIES OVER TELSTAR

On the night of Feb. 9-10 the first total eclipse of the moon since October 1959 will be visible from beginning to end throughout North America.

Moon enters umbra 12:52 a.m. Wed.  
Totality begins 2:03 a.m. "  
Middle of eclipse 2:45 a.m. "  
Totality ends 3:26 a.m. "  
Moon leaves umbra 4:27 a.m. "

Umbra is a term used to describe the inner dark shadow cast into space by the earth.

Penumbra is the term that is used to describe the secondary shadow which is much larger than the umbra which it surrounds.

The penumbral phase starts approximately 23-30 minutes earlier than the umbra. In viewing this eclipse the use of telescopes or binoculars may be helpful. During the totality the moon may be 100,000 times fainter than it was at the beginning of the eclipse.

Don your nightcaps and warm pajamas and join us in watching this fascinating celestial event.

## IN LOVING MEMORY

Blaze of Glory  
for Virginia and Clyde  
They didn't slip away silently in the night.  
God made plans for a special flight  
They left in a blaze of Glory for all to see  
Recognized in papers, radios and T. V.  
They went, as they lived, side by side  
One is now the other one's guide  
They're exploring unknown worlds and places  
Meeting again old and familiar faces.  
They didn't reach worldly deeds and fame  
But they'll be remembered like an eternal flame  
We all will take a similar flight  
Virginia and Clyde will light our way.  
Our destiny is planned from the day of birth  
They're lives were complete and they left this earth  
We let them go now to complete God's story.  
Because He chose to call them in a Blaze of Glory.  
Dedicated to their daughter:

## GREENWOOD CITY

— Mrs. Colista Morgan, Corres. —

There was a charm that invited me outside. So I dressed warmly, took my camera, strapped on my snowshoes and was off up the old spring road. I went where bushes were dark and bare but recently had worn cotton in their hair.

The trail was familiar to me but it was hard traveling because of bent bushes, wind swept crust, and uneven ground; entirely different from fall or summer.

I hoped to reach the top where the "going" would be easier but it was uphill all the way.

Despite the fact that it felt cold when I started, I noticed none of it now.

Upon the canvas of the countryside, were the old familiar scenes of Nature's paintings while below me occasionally a car passed over the road where tree shadows sat.

Just ahead and across my path a large tree had fallen and blocked my way so I had to detour to the hemlock growth.

Hemlocks, which are considered climax species are magnificent sentinels here in the cool moist forest. They grow slowly in the shade then eventually overtop their neighbors. The hemlocks are referred to in American Literature. Remember Whit-

tier's "Where the hemlock grew so dark"?—or Longfellow's "The murmuring pine and hemlock"—John Burroughs called them "the poor man's pine". But the sound described by Donald Peattie intrigues me.

"When the wind lifts up the hemlock's voice it is no roaring like the pine, no keening like the spruce. The hemlock whistles softly to itself. It raises its long limber boughs and lets them drop again with a sigh, not sorrowful but letting fall tranquilly upon us."

That best described them while passing through the grove.

Now came the steepest part but with help of branches and bushes I made it to the top without a spill.

Removing my mittens and unfastening my coat I rested, by leaning against a large gray rock at the side of which still clinging were lichens and mosses so delicate as to be elfin.

It was pretty here in the hills, warm and as cozy as the hollow of a cup.

It was easier traveling now among some of the old trees, their bare branches stark against the winter sky.

In one spot where the snow was pristine pure and white, there were "fields" of tiny winglike seeds. I thought they must be from the near-

by hemlocks. Then again just a car part of white.

Beneath the snow, uncounted millions of seeds lie in the tree buds, ready with the spark of life. The chilled roots in the frozen humus are, too, biding their time—waiting for spring.

I continued across the top of the hill northward until I met the old bulldozer road then followed it on home.

The path was easy now, carpeted, deep shadowed, few road blocks and in the distance the column of snow capped mountains, guardians of the valley.

So as Maxine Lyga puts it, "And if you folks ain't tried 'em, Then you'll never know the thrills That's known by us country folks 'at lives out here on the hills."

Mr. and Mrs. Robert Holt and son, Danny, Bangor, were here for the week end visiting Mr. and Mrs. Leona Holt, David and Ann.

Mr. and Mrs. Leona Holt were in Lewiston on Friday and visited Bernard Morgan at the CMG Hospital. He is expected home this week after a stay in Lewiston since Nov. 3.

NOTICE OF PROPOSED RECONSTRUCTION AND/OR RELOCATION  
STATE ROUTE 120  
IN THE TOWN OF  
ANDOVER — OXFORD COUNTY  
FEDERAL AID PROJECT 5-0177(3)

The State Highway Commission hereby gives notice that it has voted to reconstruct and/or relocate a portion of State Route 120 in the Town of Andover as described below:

Location: Beginning about 600 feet southeasterly of the intersection of State Route 120 and the East Andover Road on the East Andover Road at Survey Station 103+00 and extending southeasterly to Survey Station 107+50.334 which is the proposed intersection of the East Andover Road and Route 120 about 100 feet southeasterly of the existing intersection, thence continuing in a northeasterly direction to Survey Station 115+00 which is in the center of the existing Route 120. A spur line will be constructed beginning at the proposed intersection of the East Andover Road and State Route 120 at Survey Station 9+00.00 and extends in a northeasterly direction generally along the existing Route 120 to Survey Station 16+50 which is in the center of existing State Route 120. Design: The roadway will be designed 31 feet in width, made up of two eleven-foot wide bituminous travel lanes with a six-foot wide gravel shoulder on each side, all to be constructed on a variable depth aggregate base and subbase. Surface drainage will be accommodated by means of catch basins and an underground storm sewer system leading to suitable outlet ditches or natural waterways. Total width of right of way required for the project will be 120 feet or 20 feet on each side of the new centerline, but may be reduced to 40 feet on one side of the centerline to minimize property damage. Where construction limits extend beyond the new right of way limits, additional easements will be required.

This proposed location and design is generally in accordance with the preliminary plans as presented at an informal meeting held in the Selectmen's Office in Andover on November 11, 1970 except that the portion on the East Andover Road was moved westerly about ten feet to further minimize property damage.

Maps and sketches as well as all other pertinent information relating to the location and design of this project are available for public inspection and copying at the State Highway Commission Division Office, U. S. Route 2, Bethel, Maine between the hours of 8:00 A. M. and 5:00 P. M., Monday through Friday.

### DISTRICT 44 BUDGET

continued from Page One

The Telstar faculty reported on the week he spent in Boston with the Vice Squad in connection with narcotics. Among his observations are the facts that narcotics in Boston have reached unbelievable proportions and that Boston is the chief source of drugs that are found in Maine and New Hampshire. While elimination of this problem is impossible, we can hope to control it effectively. Among his recommendations were the creation of a health education program to include all areas of health, alcohol, narcotics, venereal disease, mental health, etc.; the establishment of a counseling service in the school to help users or potential users; total cooperation with all law enforcement agencies by the school and parents; and the appointment of an individual who has the knowledge to coordinate the efforts of the school and the law enforcement agencies.

In the citizens' section of the meeting, Mrs. Ann Farrow of Woodstock requested that the board consider sending the Telstar Ski team to view the World Cup ski races at Sugarloaf. It appeared to be the general feeling that this would not be feasible as the event is scheduled during the week preceding the February vacation.

A group of Andover parents were present regarding transportation of student spectators home from activities at Telstar. After discussion the matter was referred to the Transportation Committee for consideration.

Sgt. Robert Gerardi reported that the student trip to England had been cancelled due to lack of interest by potential participants.

The board approved the nomination of Robert Lancaster to teach physical education at Telstar effective Feb. 1. He is a graduate of South Portland High School and received his degree from Plymouth (N. H.) State College last month. Mr. Lancaster assumes the instruction duties of Tim LaVallee in the department while Mr. LaVallee is serving as acting assistant principal for the balance of the current school year.

The resignation of David Denison as Adult Education Director was accepted. Mr. Denison has served as director in this area for the past two years in addition to his duties in the guidance department.

The directors approved the results of the secretarial negotiations, previously approved by the district employees involved.

Based on a letter received from Michael O'Donnell, clerk of the Bethel Water District, that the site of the well pump of the West Bethel Water System had been transferred to S. A. D. 44 in error, it was the decision of the board to transfer approximately one-third of an acre to the Water District at no cost to S. A. D. 44. The waterworks are on the same parcel of land as the West Bethel school house and were evidently transferred to the school district by the town of Bethel in 1965.

Directors absent at the Monday meeting were Mrs. Jean Wiese of Bethel and Paul Wight of Newry.

A special meeting of the board was held at Telstar last Friday evening for work on the 1971 budget.

Mr. and Mrs. Albert Johnson and family of Bethel Island were week end guests of Mr. and Mrs. Harold Stevens.

### DENTAL HEALTH WEEK

IS ALL YEAR LONG

Many functions begin in the mouth. Certainly a child in his early stage of development is centered around his mouth as the starting point of his communication. In the adult enjoyment of food also begins in the mouth. A healthy mouth is more important for a confident smile, good appearance, and of course as the organ for our human attribute, speech and language.

Keeping a healthy mouth is based on conservation of teeth and the prevention of diseases of the gums. The success you have is based on proper personal care and regular visits to your dentist. When he suggests a dental health aid—we have it.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.
